

Day 3 / New Delhi, September 16, 2015

International FoodTec India and PackEx India 2015: has benchmarked itself as THE TRADE FAIR for food, drink and packaging Industry in NEW DELHI

We extend our sincere gratitude to all our exhibitors and key visitors for advising us to organize International FoodTec India and PackEx India in the northern region of India, New Delhi.

After 2008, International FoodTec India and PackEx India has once again emerged as the numero uno supplier trade fair for food, drink and Packaging Industry in the Capital of India, NEW DELHI. 9369 trade visitors came to the Pragati Maidan during September 14 to 16, 2015 to obtain information about technological solutions for the food and drink industry and for the packaging industry.

International FoodTec India, Sweet and SnackTec India, Dairy Universe India and PackEx India 2015 concluded on a positive note. Almost all the exhibitors from India and abroad were extremely satisfied with the quality and quantity of the visitors who attended the trade fair. A total of 386 exhibitors from over 33 countries presented their products and technologies during the three trade fair days, 48% of which were international brands. The exhibition once again confirmed its position as the best business platform that provides customized solutions for the Indian and neighboring markets. The 2015 edition has over 9300 one time registered visitors. Key visitors from different industry sectors were present during all the three days visiting the exhibition and constructively gathered insights into the technologies for the food and drink processing and packaging industries.

Despite of the slowdown in the global economy, and a new Venue, International FoodTec India 2015 has closed on high note. The exhibition was completely busy with exhibitors making presentations about their offerings to the attendees at the fair. International FoodTec India 2015 acted as a great platform for buyers and sellers of technology in food, drinks, dairy confectionary and snacks along with others to exchange dialogues to facilitate more business for future. It also gave the exhibitor's existing clientele an insight into the latest manufacturing technology techniques. Though the exhibition started on a busy first day of the week, the stream of visitors continued unabated till the last trade fair day.
